

Nigeria Prefab Steel Structure Church Glass Dome Roof

Structure Type: Light Steel
Application: Church Roof Skylight
Design Standard: ASTM
Diameter: 25.00m
Height: 4.45m
Wind Zone: 78km/h
Seismic Zone: 4(Z=0.4)
Certificates: SONCAP, CCVO, SGS
Steel Material: Q235B
Surface Treatment: Three coats of paint (Total thick of dry film≥125 micron)
Roof Cover: 6+12A+6+6 hollow laminated tempered glass
Shipping: 30 working days after designing drawings are confirmed with signature
Installation: Supply supervision
Packaging Details: Use packing rack for large steel components, small components are put into wooden cases.
Design life: 50 years
